November 22, 1994

Mr. Jack Grobe, Chief
Nuclear Materials Inspection Section #2
Nuclear Regulatory Commission
801 Warrenville Rd.
Lisle, IL 60532-4351

BY FAX & U.S. MAIL

Dear Mr. Grobe:

As a follow up to our conversation by phone on Monday November 14, 1994, I am requesting that the Nuclear Regulatory Commission clarify and amplify on the findings of Inspection Report No. 030 - 16055/93003 (DRSS) which the City received as an attachment to a letter dated November 7, 1994 to Seymour Stein of Advanced Medical Systems.

Specifically, the City would like to know whether the violations discussed in this report represent any public health threat to the citizens of the City of Cleveland, both at the present time and in the past, when the violations occurred.

If you have any questions, please do not hesitate to contact me at (216) 664-2359. Thank you for your attention to this matter.

Sincerely,

Robert O. Staib, Commissioner
Division of Environment
