

January 27, 1997

Pensacola Testing Laboratories, Inc.
ATTN: Patrick A. Wheeler, President
Radiation Safety Officer
217 East Brent Lane
Pensacola, Florida 32503

SUBJECT: RECOGNITION OF RECIPROCITY - CALENDAR YEAR 1997

Dear Mr. Wheeler:

This acknowledges receipt of your Reports of Proposed Activities in Non-Agreement States (NRC Form 241) dated January 17, 1997, and receipt of the initial recognition fee as required by 10 CFR 150.20(b) and 10 CFR 170.31 (Category 16 - Reciprocity).

License Number 1176-2 (radiography) issued by the State of Florida is recognized as valid for use in non-Agreement States for up to 180 days in **calendar year 1997 only**. License Number 1176-1 (portable gauges) issued by the State of Florida is recognized as valid for use in non-Agreement States for up to 180 days in **calendar year 1997 only until receipt of a renewed license from the State of Florida**. We accept the renewal acknowledgement letter to you from the State of Florida dated December 13, 1996. Please provide us with a renewed license when issued.

We have assigned a Location Reference Number (LRN) to each site you have reported. New activities should be reported on the enclosed NRC Form 241 marked as a revision. Revisions should be faxed to NRC Region II three days in advance of the proposed activity, along with the fee for the revision. There is no limit to the number of activities reported at one time, and one fee is charged without regard to the number on the revision page. Clarifications change already-reported information or cancel jobs; they require no fee. Please indicate the already-assigned LRN for the site.

Licensed activities at Exclusive Federal Jurisdiction areas which are within the boundaries of Agreement States (including your state) are under the jurisdiction of the NRC and should be reported to us via the Form 241. We have enclosed a procedure for you to use in seeking determination of the status of federal areas. We have enclosed information on contacting other Agreement States for your convenience. We have enclosed a listing of the Radiation Protection Officers at each of the locations you have reported. This listing may not be current due to changes in staff at the facilities.

Some NRC regulations may differ from those of your Agreement State. You are responsible for the content and compliance with NRC regulations while conducting work within NRC jurisdiction. We have enclosed copies of the pertinent regulations for your use. The regulations, your license and procedures are required to be available so that staff who are occupationally exposed to radiation can view them on the way to or from licensed activities.

The Commission may, at its option, conduct an inspection of your activities. Enclosed is a copy of NUREG 1600, "General Statement of Policy and Procedures for NRC Enforcement Actions." We shall notify the appropriate NRC offices and Non-Agreement States of your proposed activities.

Our fax numbers are (404) 331-7437/5559. My telephone number is (404) 331-5624. Please call should you have questions.

Sincerely,

/s/

David J. Collins, Health Physicist
Materials Licensing/Inspection Branch 2
Division of Nuclear Materials Safety

**REPORT OF PROPOSED ACTIVITIES
IN NON-AGREEMENT STATES**

(Please read the instructions on the cover sheet before completing this form.)

Estimated burden per response to comply with this mandatory information collection request: 16 minutes. This notification is required so that NRC may schedule inspection of the activities to ensure that they are conducted in accordance with requirements for protection of the public health and safety. Forward comments regarding burden estimate to the Information and Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to the Paperwork Reduction Project (3150-0013), Office of Management and Budget, Washington, DC 20503. NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.
