Wangner Systems Corporation  
ATTN: Karen G. Smith  
Technical Service Coordinator  
525 Old Piedmont Highway  
Greenville, South Carolina 29605

SUBJECT: RECOGNITION OF RECIPROCITY - CALENDAR YEAR 1997

Dear Ms. Smith:

This acknowledges receipt of your Report of Proposed Activities in Non-Agreement States (NRC Form 241) dated January 7, 1997, and receipt of the initial recognition fee as required by 10 CFR 150.20(b) and 10 CFR 170.31 (Category 16 - Reciprocity). You have estimated activities scheduled for 128 days in NRC jurisdiction areas.

License Number 323 issued by the State of South Carolina is recognized as valid for use in non-Agreement States for up to 180 days in **calendar year 1997 only**. We have assigned a Location Reference Number (LRN) to each site you have reported. New activities should be reported on the enclosed NRC Form 241 marked as a revision. Revisions should be faxed to NRC Region II three days in advance of the proposed activity, along with the fee for the revision. There is no limit to the number of activities reported at one time, and one fee is charged without regard to the number on the revision page. Clarifications change already-reported information or cancel jobs; they require no fee. Please indicate the already-assigned LRN for the site.

Licensed activities at Exclusive Federal Jurisdiction areas which are within the boundaries of Agreement States (including your state) are under the jurisdiction of the NRC and should be reported to us via the Form 241. We have enclosed a procedure for you to use in seeking determination of the status of federal areas. We have enclosed information on contacting other Agreement States for your convenience.

You should be aware that the Commonwealth of Massachusetts is scheduled to become an NRC Agreement State in the first half of this calendar year. This means that the Commonwealth will assume control of all Atomic Energy Act byproduct materials, including use of portable gauges under the provisions of 10 CFR Part 150. In such a case, NRC recognition of reciprocity will become void.

Some NRC regulations may differ from those of your Agreement State. You are responsible for the content and compliance with NRC regulations while conducting work within NRC jurisdiction. We have enclosed copies of the pertinent regulations for your use. The regulations, your license and procedures are required to be available so that staff who are occupationally exposed to radiation can view them on the way to or from licensed activities. The Commission may, at its option, conduct an inspection of your activities.

PDR

1107

Enclosed is a copy of NUREG 1600, "General Statement of Policy and Procedures for NRC Enforcement Actions." We shall notify the appropriate NRC offices and Non-Agreement States of your proposed activities.

A current license is required for licensed work in NRC jurisdiction. Please provide us with a renewed license or letter from the licensing agency prior to conducting work in NRC jurisdictional areas after the expiration date listed in your license on file with us.

Our fax numbers are (404) 331-7437/5559. My telephone number is (404) 331-5624. Please call should you have questions.

Sincerely,

*JS*

David J. Collins, Health Physicist

NRC FORM 241

15-09  
10 CFR 150

U. S. NUCLEAR REGULATORY COMMISSION

REPORT OF PROPOSED ACTIVITIES  
IN NON-AGREEMENT STATES

(Please read the instructions on the cover sheet before completing this form.)

APPROVED BY CIRCULAR NO. 1324-0013

For each item per response to comply with the mandatory information evaluation system, 18 states. This regulation is required so that NRC may schedule inspection of the activities to ensure that they are conducted in accordance with requirements for the protection of the public health and safety. Forward comments regarding burden estimate to the Information and Records Management Branch (T-6 F33) U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to the Paperwork Reduction Project (150-0013) Office of Management and Budget, Washington, DC 20503. NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

19. CERTIFICATION (MUST BE COMPLETED BY APPLICANT)

I, THE UNDERSIGNED, HEREBY CERTIFY THAT:

- All information in this report is true and complete.
- I have read and understand the provision of the general license 10 CFR 150.20 reprinted on the cover sheet of this form set; and I understand that I am required to comply with these provisions as to all byproduct, source, or special nuclear material which I possess and use in non-Agreement States or offshore waters under the general license for which this report is filed with the U.S. Nuclear Regulatory Commission.
- I understand that activities, including storage, conducted in non-Agreement States under general license 10 CFR 150.20 are limited to a total of 180 days in calendar year.
- I understand that I may be inspected by NRC at the above listed work site locations and at the licensee home office address for activities performed in non-Agreement States or offshore waters. I am also aware that I will be responsible for any fees associated with such inspections.
- I understand that conduct of any activities not described above, including conduct of activities on dates or locations different from those described above or without NRC authorization, may subject me to enforcement action, including civil or criminal penalties.
