ENCLOSURE 1

STATEMENT OF CONCERN

The NRC has received information that vendor documents collected by San Onofre Nuclear Generating Station in the last one-and-a-half years have not been evaluated for their impact on the plant. Specifically, vendor documents for equipment installed during the last two plant outages have not been issued by CDM and, as a result, the vendor information has not been evaluated for its potential impact on existing plant operation and maintenance procedures. The only vendor information being evaluated is if the information is contained in design change packages.

ENCLOSURE CONTAINS INFORMATION
EXEMPT FROM PUBLIC DISCLOSURE.
