August 7, 1995

Prof. Dr. Dr.-Ing. E. H. Adolf Birkhofer
Gesellschaft für Anlagen-und
Reaktorsicherheit GRS mbH
Postfach 13 28
85739 Garching b. München
Germany

Dear Dr. Birkhofer:

It was a pleasure to meet you and to have an opportunity to discuss issues of mutual interest on June 21, 1995.

Unfortunately, time will not permit me to visit Germany in September. However, perhaps arrangements can be made for us to continue our discussion of nuclear safety matters during the IAEA General Conference in Vienna. A visit to Germany will be included in one of my future trips to Europe.

I look forward to seeing you again.

Sincerely,

Shirley Ann Jackson

Release

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

August 9, 1995

Ms. Alison S.K. Arnstein
Country Manager, NIS
Room 309 SA-16
U.S. Trade and Development Agency
Washington, D.C. 20523-1602

Dear Ms. Arnstein:

Thank you for the information letter regarding the Trade and Development Agency-funded feasibility studies relating to the shutdown of the Russian plutonium production reactors at Tomsk and Krasnoyarsk. I applaud TDA's support for efforts to halt the production of weapons-grade plutonium in Russia, an issue of great importance to the United States.

I am interested in the outcome of your work and look forward to receiving additional periodic status reports.

Sincerely,

Shirley Ann Jackson
