Re: Application to Amend License No. 34-19089-01

Dear Mr. Caldwell:

On March 22, 1995, Advanced Medical Systems, Inc. (AMS) requested an amendment of License No. 34-19089-01 to permit evaporation of water stored in the warehouse of the London Road facility. The USNRC's first response to that request occurred on June 8, 1995 when Mr. Wayne Slawinski forwarded to us a series of questions that pertained to this request. On that same date, we provided you with answers to those questions.

One of those questions pertained to the status of the permits for the evaporator. We provided you with a May 5, 1995 letter from The City of Cleveland wherein they relinquished jurisdiction on this issue to the U. S. Environmental Protection Agency (USEPA). While AMS had verbal authorization from the USEPA to proceed, we did not have the written authorization in hand.

Since our June 8, 1995 submission, we have received written approval of our application to construct, install and operate the evaporator system. A copy of this letter is attached.

We hope that you now have sufficient information to permit you to complete your evaluation of our request to evaporate the treated water that currently exists in the warehouse of the AMS building. We are again asking that you give prompt consideration to this request since we are rapidly reaching the maximum storage capacity of the building. Please call me at (216) 692-3270 if additional information is required or if I can help you expedite your approval.

Sincerely,

Robert Meschter, RSO

RE: Approval of Application to Construct or Modify
for Advanced Medical Systems, Inc. Facility
Located at 1020 London Road, Cleveland, Ohio,
to Install and Operate an Evaporator System

Dear Mr. Cesar:

In accordance with Section 112 of the Clean Air Act, as amended (42 U.S.C. § 7412) and the National Emission Standards for Hazardous Air Pollutants (NESHAPs), 40 CFR Part 61, Subparts A and I, the United States Environmental Protection Agency (USEPA) hereby approves your application to proceed with the installation and operation of an evaporator system at the facility. This approval is granted based upon, and limited to the scope of, the plans and materials and equipment listing submitted with Advanced Medical System's March 23, 1995, application sent to the City of Cleveland, and forwarded to the USEPA.

This approval to construct or modify grants no relief from the responsibility for compliance with other applicable provisions of Federal, State or local requirements and is immediately effective.

If you should have any further questions or need additional information regarding this approval, please contact Michael Murphy, of my staff, at (312) 353-6686.

Sincerely yours,
