SUBJECT: INTERNATIONAL TRAVEL

In parallel with the new strategic planning effort that I am initiating, and in light of recent and possible future budget reductions, I plan to carefully review requests for international travel submitted by your offices. To assist me in this regard, I am requesting that, in addition to the normal documentation accompanying such requests, the meeting agenda and program also be attached, and a statement of the importance to the NRC of participation in the event.

I appreciate your prompt attention in this matter.
