Subject: Phipps DOL case -Reply

I did get a copy of the licensee's response to the "chilling letter." Since a settlement agreement was reached between the licensee and allegor, with neither party stipulating to fault, the 10 CFR 50.7 issue will have to be resolved through OI investigation as time allows.

INVESTIGATION STATUS RECORD

Case No.: 2-95-008 Facility: ST. LUCIE NUCLEAR PLANT
Allegation No.: RII-95-A-0026 Case Agent: DOCKERY
Docket Nos.: 050-335; 050-389 Date Opened: 03/03/95
Source of Allegation: ALLEGER Priority: NORMAL
Notified by: EICS Set by: S. EBNETER, RA
Category: IH Case Code: RP
Subject/Allegation: ALLEGED DISCRIMINATION OF I&C TECHNICIAN FOR REPORTING SAFETY CONCERNS

Remarks:

Monthly Status Report:

03/03/95: The alleger, Gary PHIPPS, a Digital Instrumentation and Control (I&C) technician at St. Lucie, stated that his Florida Power and Light Company management discriminated against him for raising concerns regarding system configuration and maintenance, and for reporting safety concerns to SPEAKOUT (the site employee concerns program). PHIPPS stated that the adverse action was in the form of his being the only I&C technician that was not assigned any outage work.
