

November 12, 1996

Dear Colleague:

Thank you for your assistance and cooperation. Enclosed is the AEOD report and the letter that transmitted this report to the Office of Nuclear Reactor Regulation. All of these documents are now public. AEOD intends to publish the study as a NUREG, and has requested that a Nuclear Regulatory Commission Information Notice be issued to summarize the spent fuel cooling assessment. It is expected that the NUREG and Information Notice will be issued by the end of the year.

Sincerely,
