Re: Decommissioning Funding Plan for Advanced Medical Systems, Inc. (License No. 34-19089-01, Control Number 98507)

Dear Mr. Madera:

Advanced Medical Systems, Inc. (AMS) is in receipt of your August 17, 1995 letter wherein you indicated that the January 1995 decommissioning cost estimate and site characterization for the London Road facility are no longer valid. In response to that letter, and as follow-up to a discussion between representatives of AMS, Mr. Michael Weber, Ms. Cynthia Pederson and Dr. Donald Cool on August 29, 1995, AMS intends to prepare a Conceptual Decommissioning Plan for the facility.

This plan will contain the decommissioning objective and its basis, a description of the items to be decommissioned, the proposed decommissioning methodology, an ALARA analysis to support the proposed methodology, a cost estimate (1995 costs) for implementing the methodology, and a review schedule for ensuring the Plan's continued applicability for the duration of License No. 34-19089-01. The Plan will be submitted to the USNRC by October 23, 1995, and will reference Control Number 98507. Once approved, the plan will be funded by the corporation and reviewed for continued applicability at the agreed-upon schedule.

If you have any questions or if I can provide you with additional information, please call me at (216) 692-3270.

Sincerely,

Robert Meschter, R.S.O.
