CONDITIONS

10. Licensed material shall be used only at 1884 East 3rd Street, Anchorage, Alaska.
11. Licensed material shall be used by, or under the supervision of Shane Cunningham, Anthony Thornhill, or Lamar Johnson.
12. The licensee shall assure that each device distributed contains instructions and labels as required by 10 CFR Sections 32.51 and 32.51a. Labels and instructions provided by Self-Powered Lighting, Inc., or Safety Light Corporation, with sealed sources and devices shall not be removed or altered by the licensee.
13. The licensee shall maintain transfer records and submit quarterly transfer reports to NRC and Agreement States in accordance with 10 CFR Section 32.52.
14. The licensee shall conduct a physical inventory every six (6) months to account for all sources and/or devices received and possessed under the license. Records of the inventories shall be maintained for two (2) years from the date of each inventory.
15. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents including any enclosures, listed below. The Nuclear Regulatory Commission's regulations shall govern unless the statements, representations and procedures in the licensee's application and correspondence are more restrictive than the regulations.
 - A. Application dated May 28, 1980
 - B. Application dated October 9, 1981
 - C. Letter from Self-Powered Lighting dated July 21, 1982

Anchorage, Alaska 99501-1499

SUBJECT: LICENSE AMENDMENT

Please find enclosed License No. 50-19429-01. You should review this license carefully and be sure that you understand all conditions. If you have any questions, you may contact the reviewer who signed your license at (510) 975-0250.

A review of your letter dated July 31, 1996 indicates that the transfer of control of License 50-19429-01 to Consolidated Electric Distributors, Inc. on January 31, 1994, was in accordance with the Atomic Energy Act of 1954 (68 Stat. 919), including any amendments thereto, and we hereby give NRC consent to same pursuant to Section 30.34(b) of 10 CFR Part 30. However, the license transfer should not have taken place until the NRC had given its written consent, as required by 10 CFR 30.34(b). This matter will be addressed in a Notice of Violation which will be forwarded under separate cover.

NRC expects licensees to conduct their programs with meticulous attention to detail and a high standard of compliance. Because of the serious consequences to employees and the public which can result from failure to comply with NRC requirements, you must conduct your program involving radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers: Inspection and Investigations," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
2. Possess radioactive material only in the quantity and form indicated in your license.
3. Use radioactive material only for the purpose(s) indicated in your license.
4. Notify NRC in writing of any change in mailing address (no fee required if the location of radioactive material remains the same).

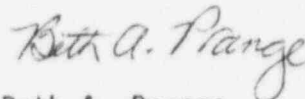

5. Request and obtain written NRC consent before transferring your license or any right thereunder, either voluntarily or involuntarily, directly or indirectly, through transfer of control of your license to any person or entity. A transfer of control of your license includes not only a total change of ownership, but also a change in the controlling interest in your company whether it is a corporation, partnership, or other entity. In addition, appropriate license amendments must be requested and obtained for any other planned changes in your facility or program that are contrary to your license or contrary to representations made in your license application, as well as supplemental correspondence thereto, which are incorporated into your license. A license fee may be charged for the amendments if you are not in a fee-exempt category.
6. Maintain in a single document decommissioning records that have been certified for completeness and accuracy listing all the following items applicable to the license:
 - Onsite areas designated or formerly designated as restricted areas as defined in 10 CFR 20.3(a)(14) or 20.1003.
 - Onsite areas, other than restricted areas, where radioactive materials in quantities greater than amounts listed in Appendix C to 10 CFR 20.1001-20.2401 have been used, possessed, or stored.
 - Onsite areas, other than restricted areas, where spills or other unusual occurrences involving the spread of contamination in and around the facility, equipment, or site have occurred that required reporting pursuant to 10 CFR 30.50(b)(1) or (b)(4), including areas where subsequent cleanup procedures have removed the contamination.
 - Specific locations and radionuclide contents of previous and current burial areas within the site, excluding radioactive material with half-lives of 10 days or less, depleted uranium used only for shielding or as penetrators in unused munitions, or sealed sources authorized for use at temporary job sites.
 - Location and description of all contaminated equipment involved in licensed operations that is to remain onsite after license termination.
7. Submit a complete renewal application with proper fee, or termination request at least 30 days before the expiration date on your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of radioactive material after your license expires is a violation of NRC regulations.
8. Request termination of your license if you plan to permanently discontinue activities involving radioactive material.

Consolidated Electric Distributors, -3-
Inc. dba Electric Distributors

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation; imposition of a civil penalty; or an order suspending, modifying, or revoking your license as specified in the "General Statement of Policy and Procedure for NRC Enforcement Actions" (Enforcement Policy), 60 FR 34381, June 30, 1995.

Thank you for your cooperation.

Sincerely,

Beth A. Prange

Walnut Creek, CA 94596

Dear Beth:

In response to a request by David Skov, NRC Nuclear Inspector, I am forwarding this letter describing the purchase of EDI, by Consolidated Electrical Distributors, Inc.

On January 31, 1994, Consolidated Electrical Distributors, Inc., a Delaware corporation, acquired substantially all of the assets, subject to certain liabilities, of Electric Distributors, Inc. (EDI), an Alaskan corporation. The assets acquired included defined inventory, trade accounts receivable, fixed assets, contracts, books and records, prepaid expenses and tradenames. This was not a stock purchase transaction.

Thank you, again, for your cooperation. Please feel free to call me with any additional questions that you have regarding our NRC License.

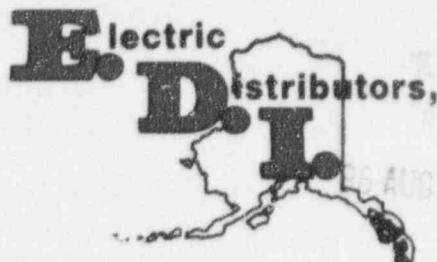

Cordially Yours,

M. Shane Cunningham
Manager, EDI-Anchorage

United States Nuclear Regulatory Commission-Region IV
1450 Maria Lane, Suite 210
Walnut Creek, CA 94596

Attn: Beth Prange-Health Physicist

Dear Beth:

Pursuant to our recent inspection, by David Skov, and in conjunction with our telephone conversation, I would like to Request an Amendment to our current license to reflect several changes that have taken place with respect to NRC license number 50-19429-01.

First, I would like to formally notify the Nuclear Regulatory Commission of a change of ownership, which took place on January 31, 1994. At that time, the business assets of Electric Distributors, Inc., Anchorage, Alaska, were purchased by Consolidated Electric Distributors, Inc., of Westlake Village, California. This was an asset purchase and did not involve Company stock.

The new name of the licensed organization, as of January 31, 1994, is Consolidated Electric Distributors, Inc. (CED), d.b.a. Electric Distributors (EDI), at 1884 East Third Avenue, Anchorage, Alaska, 99501.

The licensee contact at CED d.b.a. EDI is Shane Cunningham, and the contact telephone is (907)-277-5678. Regarding line number 11 of the License, please remove the names of Wes Stoecker and E. Don Butts, as they are no longer employed at CED d.b.a. EDI. Licensed material shall be used by, or under the supervision of, Shane Cunningham, Lamar Johnson, and Anthony Thornhill. Shane Cunningham is the Profit Center Manager. Lamar Johnson is the Purchasing Agent, and Tony Thornhill is the Warehouse Supervisor.

CED d.b.a. EDI intends to continue operating in the same location, at 1884 East Third Avenue, Anchorage, Alaska. All operating procedures will remain the same, except as noted in this Request for Amendment. In addition, there are not any plans to change the use, possession, location, or storage of the licensed materials.

The surveillance items and records will remain unchanged with the exception that the Quarterly Report will be amended to include, along with the name and address of the company purchasing the material, a contact person and/or position within the purchasing organization. The words "Type-Tritium" will also be added to the Quarterly Report form to define the type of material. The cover sheet of the Quarterly Report will be amended so that the words "General Licensee" are changed to read "Specific Licensee." The filing of the Quarterly Reports is current, and will continue to be maintained in the same manner.

572395

CED d.b.a. EDI, as the transferee, agrees to abide by all constraints, conditions, requirements, representations, and commitments identified in the existing License, except as noted in this Request for Amendment.

In addition to our the change in ownership, CED d.b.a. EDI would like to request that license number 50-19429-01, be amended to reflect the following proposed changes to the products that we store and sell;

License Item 7B- CED d.b.a. EDI no longer inventories the T-lights. We stock only Sealed Sources. This element can be removed from the license.

License Item 7A- CED d.b.a. EDI requests that the SPL Model 700C (NRC Reg. # NY594-D-103-G), and the Isolite Model 2040-XX (NRC Reg.# NR-579-d-101-G), be added to the License as approved items for sale through our Organization.

License Item 9A- Upon NRC review and approval, this line should be changed to read "Pursuant to 10 CFR Section 32.51, the license is authorized to receive, store, and redistribute the Safety Light Corporation Isolite Model 2040-XX, Self-Powered Lighting Series 700C, and Self-Powered Lighting Series 710 exit signs, equipped with tamperproof screws, to general licensees as defined by 10 CFR Section 31.5, or equivalent provisions of an Agreement State."

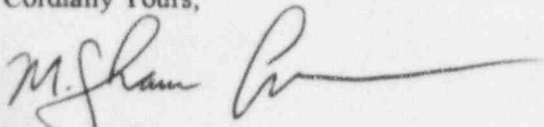

License Item 12A- Upon NRC review and approval, this line should be changed to read "The licensee shall assure that each device distributed contains instructions and labels as required by 10 CFR Sections 32.51 and 32.51a. Labels and instructions provided by Safety Light Corporation, or by Self Powered Lighting, Inc., with sealed sources and devices shall not be removed or altered by the licensee."

Except as noted in this Request for Amendment, CED d.b.a. EDI will conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed in the Amendment No. 2, dated January 23, 1993.

The Staff at CED d.b.a. EDI would like to thank Dave Skov, Radiation Specialist with the NRC, for taking the time to help explain the licensing regulations and requirements. We understand the importance for complying with the NRC regulations with respect to ownership changes and the need for the amendment process. We will continue to familiarize our staff with the proper regulations and requirements and do everything within our power to comply with the NRC in those areas applicable to our operation.

CED d.b.a. EDI will respond promptly to any verbal or written requests that are made regarding any issue surrounding our License with the NRC. Please Feel free to call me with any specific comments or questions that you might have.

Cordially Yours,

A handwritten signature in dark ink, appearing to read 'M. Shane Cunningham', followed by a long horizontal flourish.
