

NOTICE OF VIOLATION

Chemetron Corporation
Fort Lauderdale, Florida

License No. SUB-1357
Docket No. 040-08724

During an NRC inspection conducted September 23-27, 1996, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions" (Enforcement Policy), NUREG-1600 (60 FR 34381; June 30, 1995), the violation is listed below:

Condition 14 of License No. SUB-1357, Amendment No. 5, dated June 7, 1996, states in part that, "The licensee shall implement radiological controls and training in accordance with the "Radiological Control Plan," Revision 1, 1993."

Section 9.2.5.1 (Dosimetry) of the Radiological Control Plan, Revision 1, 1993, requires that copies of individual exposure results (NRC Form 5) will be transmitted to each employee at the end of the year.

Contrary to the above, copies of the exposure results (NRC Form 5) of 16 Ayshire, Inc. employees who worked at the McGean-Rohco facility during 1995 were not transmitted to each employee at the end of the year.

This is a Severity Level IV violation (Supplement VI).

Pursuant to the provisions of 10 CFR 2.201, Chemetron Corporation is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555, with a copy to the Regional Administrator, Region III, 801 Warrenville Road, Lisle, Illinois 60532-4351 within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Because your response will be placed in the NRC Public Document Room (PDR), to the extent possible, it should not include any personal privacy, proprietary, or safeguards information so that it can be placed in the PDR without redaction. However, if you find it necessary to include such information, you should clearly indicate the specific information that you desire not to be placed in the PDR, and provide the legal basis to support your request for withholding the information from the public.

Dated at Lisle, Illinois
this 7th day of November 1996
