JB Associates, Inc.  
ATTN: Patrick F. Messing  
1000 Technology Park Center  
Knoxville, TN 37932-3353

OCT 31 1996

Dear Mr. Messing:

SUBJECT: EXTENSION TO STOP WORK ORDER, CONTRACT NO. NRC-04-94-060  
ENTITLED, "INCORPORATING ORGANIZATIONAL PERFORMANCE INTO  
PROBABLISTIC RISK"

This is a request to extend the partial Stop Work Order for thirty (30) days in relation to (1) further developmental work on the algorithm created under Task 1, and (2) all work under Tasks 2 through 5. This extension is necessary to allow time for NRC to (1) address changes required in the work scope and approach proposed by JB Associates as a result of the peer review, (2) make a decision with respect to the reasonableness and practicality of these changes, and (3) modify the current Statement of Work accordingly.

The extension to the Stop Work Order is issued in accordance with Federal Acquisition Regulation clause 52.242-15 I, and shall be in effect 30 days from the date of receipt of this order.

As the current Stop Work Order on the above work expires on 10/31/96, please indicate your acceptance of this extension as soon as possible by having an official, authorized to bind your organization, execute two copies of this document in the space provided and fax one copy to Paulette Smith on (301) 415-5761 (please return one hard copy to U.S. Nuclear Regulatory Commission, ATTN: Paulette Smith, Mail Stop: T-7-I-2, Division of Contracts, Washington, DC 20555). You should retain the other copy for your records.

If you have any questions, please contact Ms. Smith on (301) 415-6594.

Sincerely,

*Mary Mace*  
Mary Mace, Contracting Officer  
Technical Acquisition Branch No. 1
