Lisle, Illinois 60523-4351

Re: USNRC License No. 34-19089-01

Dear Mr. Caldwell:

License condition 19.E.ii of Amendment 39 of the referenced license requires Advanced Medical Systems, Inc. (AMS) to submit a written plan for assessing potential contamination migration at the London Road facility. This plan is described in draft Report No. 94009/G-125, "Surveillance Plan for the London Road Facility", a copy of which was forwarded to you on August 22, 1995.

In response to a request from Mr. Kevin Knoll, enclosed is another version of the report with the "draft" notation removed from the pages. The line numbers have not been removed in order to facilitate comments. Subject to your approval, AMS is prepared to finalize and implement this plan as written. If I can answer any questions or provide you with additional information, please call me at (216) 692-3270.

Sincerely,

Robert Meschter, RSO
