

NOTICE OF VIOLATION

Marshall, Miller & Associates
Bluefield, Virginia

Docket No. 030-12341
License No. 45-17195-01

During an NRC inspection conducted October 2 - 3, 1996, violations of NRC requirements were identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," NUREG-1600, the violations are listed below:

- A. 10 CFR 39.33(c)(1) requires, in part, that radiation survey instruments used in well logging operations be calibrated at intervals not to exceed six months.

Contrary to the above, on October 3, 1996, a licensee well logging engineer conducted physical radiation surveys with a Ludlum model 2 survey instrument that was last calibrated on March 25, 1996, an interval greater than six months.

This is a Severity Level IV violation (Supplement VI)

- B. 10 CFR 39.67(b) requires, in part, that before transporting licensed materials, the licensee make a radiation survey of the exterior of the vehicle used to transport the licensed material.

Contrary to the above, as of October 3, 1996, the licensee did not perform surveys of the exterior of vehicles used to transport licensed materials to a temporary job site.

This is a Severity Level IV violation (Supplement VI).

Pursuant to the provisions of 10 CFR 2.201, Adams Industrial Services, Inc. is hereby required to submit a written statement or explanation to the Regional Administrator, Region II, with a copy to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or demand for information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.
