Gentlemen:

SUBJECT: REPORT NO. 50-62/85-01

On July 22-26, 1985, NRC inspected activities authorized by NRC Operating License No. R-66 for your Pool Reactor facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities violated NRC requirements and other activities appeared to deviate from a commitment to the NRC. The violation and deviation, with pertinent references and elements to be included in your response, are presented in the enclosed Notices.

Please note that the enclosed report documents an oral commitment (see paragraph 4.a) made by a licensee representative to the inspector. If your understanding of this commitment differs from the report statements, please inform this office promptly.

In accordance with Section 2.790 of NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosures will be placed in the NRC's Public Document Room.

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,

Roger D. Walker
Roger D. Walker, Director
Division of Reactor Projects
