Gentlemen:

SUBJECT: REPORT NO. 50-302/85-29

On June 26 - July 26, 1985, NRC inspected activities authorized by NRC Operating License No. DPR-72 for your Crystal River facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities violated NRC requirements. The violations, references to pertinent requirements, and elements to be included in your response are presented in the enclosed Notice of Violation.

Your attention is invited to unresolved items identified in the inspection report. These matters will be pursued during future inspections. With respect to unresolved item number (302/85-29-01) discussed in paragraph 3 of this report, we understand that you will respond to this item. This response will include your present program status and will provide a commitment date for completion of this study. If our understanding is incorrect, please notify this office.

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,

ISI David M. Verrelli  
for Roger D. Walker, Director  
Division of Reactor Projects
