J. L. RAINSBERRY  
MANAGER, PLANT LICENSING  
SAN ONOFRE NUCLEAR GENERATING STATION

U. S. Nuclear Regulatory Commission  
Attention: Document Control Desk  
Washington, D.C. 20555

Gentlemen:

Subject: **Docket Nos. 50-361 and 50-362**  
**Response to Generic Letter 96-05: "Periodic Verification of**  
**Design-Basis Capability of Safety-Related Motor-Operated Valves"**  
**San Onofre Nuclear Generating Station Units 2 and 3**

Reference: Generic Letter 96-05: "Periodic Verification of  
Design-Basis Capability of Safety-Related Motor-Operated  
Valves"

This letter is to notify the NRC that Southern California Edison (Edison) will perform the actions and provide the information as requested by Generic Letter (GL) 96-05. Edison established a Motor-Operated Valve (MOV) periodic verification program in response to GL 89-10. Edison will review the current MOV verification program to determine if any changes are appropriate based on GL 96-05 and will submit a written summary description of the MOV periodic verification program by March 17, 1997.

This letter meets the 60 day response required by GL 96-05. Please let me know if you have any additional questions.

Very truly yours,

Enclosure
