U.S. Nuclear Regulatory Commission
Package Certification Section
Spent Fuel Project Office
NMSS
Washington, D.C. 20555

Dear Mr. Chappell:

Certificates of Compliance that Battelle Columbus Laboratories is Registered to Use

Thank you for your letter dated October 8, 1996 providing a list of Certificates of Compliance (C of C) that Battelle Columbus is currently registered to use. Battelle is in the process of reviewing the continued need for C of C 5950 as a primary user and will advise you as soon as the review is complete.

Battelle has not been a secondary user of any of the C of Cs in the last several years and is essentially out of this type of business; therefore, Battelle wishes to have its name removed as a secondary user for all of the listed C of Cs except C of C 5950. Battelle may have a future need for packages of this general type to support its decommission efforts and will process requests for use at that time. A copy of the list of Certificates of Compliance provided to us with your letter is enclosed for your convenience.

If additional information is required, please feel free to contact Mr. Craig Jensen of my staff at (614) 424-5170.

Sincerely,

Stephen J. Layendecker
Safety, Health and Environmental Support
Manager and Radiation Safety Officer
