U.S. Nuclear Regulatory Commission
Region 1
631 Park Avenue
King of Prussia, PA 19406

Gentlemen:

This is an application for amendment fo license #20-15930-01.

Serono Diagnostics Inc. intends to issue sets of test tubes each containing less than 1 uCi of ^{125}I ; and commercially available, sealed ^{129}I ; or mock ^{125}I sources containing approximately 0.1 uCi each to Serono Sales personnel for use at temporary job sites. The sets of ^{125}I tubes will consist of approximately 30 tubes each. The sets will be made by the Q.A. group which is responsible for radiation safety. The tubes will each bear a small "Caution: Radioactive Material" label. The tubes will be stoppered and otherwise constructed to ensure that the likelihood of leakage is minimal. The tubes will be used by Sales personnel to demonstrate gamma counters at hospitals, clinical labs, trade shows, and seminars. The tubes will remain in the control of the Serono Sales personnel at all times unless locked in the trunks of their vehicles, checked as baggage, or locked in a designated area at the home office located in Braintree at 11 Brooks Drive. The designated area will not be used for storing food or beverages. The materials will be packed for transportation in sturdy protective boxes. Losses, theft, or release of radioactive material will be reported to the Radiation Safety Officer.

Obsolete material will be returned to the Q.A. group for disposal at the licensed Serono facilities.

I hope that these conditions will meet with the approval of the NRC. Please contact the undersigned should you require further information.

Enclosed is a check for \$120.00 to cover the amendment fee.

Best regards,

Paul A. Lovett, Jr.

Paul A. Lovett, Jr.
