SUBJECT COMMENTS ON NRC STRATEGIC ASSESSMENT: INTERNATIONAL ACTIVITIES

Dear Mr. James R. Shea

Thank you very much for your Fax dated Oct. 28, 1996 and the material on the international part of NRC's strategic assessment attached. My comments on the paper are as follows:

1. More attention ^{Sh}ould be paid to the cooperation on the regulatory inspection between NRC and the regulatory bodies of the countries in which the NPPs imported from USA are operating or will be built.
2. The situation that the new generation NPPs will be built in many developing countries ^{sf}ould be emphasized in the NRC's assumptions and projections for internal and external factors discussed in the paper.
