Subject: SALEM, ORGAN. EFFECTIVENESS REVIEW

AS OF THIS DATE, THE ONLY DOCUMENTATION THAT PERTAINS IS A LETTER TO TAYLOR FROM LEON ELIASON, PRESIDENT-NUCLEAR BUSINESS UNIT, PSE&G, DATED FEB. 17, 1995, WHICH ANNOUNCES PSE&Gs INTENT TO PERFORM A OER TYPE EFFORT BETWEEN 2/27 AND 3/30/95. (BILL DEAN HAS COPY).

T. MARTIN HAS SCHEDULED A TELEPHONE DISCUSSION WITH LEON ELIASON TODAY AT 4 PM IN ORDER TO DETERMINE HIS OBJECTIVES, INCLUDING SCOPE AND DEPTH, METHODOLOGY, AND PLAN. WE UNDERSTAND THAT THE TEAM WAS PLANNING TO USE THE WEEK OF FEB 27 FOR INFORMATION AND DATA COLLECTION, AND INTENDS TO DEVELOP A FORMAL CHARTER AND PLAN ON MARCH 7, 1995. WE CURRENTLY HAVE A MEETING SCHEDULE WITH THE LICENSEE (JOE HAGAN, VP OPERATIONS; JOHN SUMMERS, GM-SALEM OPERATIONS; STAN LABRUNA, VP ENGINEERING; AND POSSIBLY LEON ELIASON, PRESIDENT-NBU) AT THEIR REQUEST, ON MARCH 13, TO DISCUSS SOME SIGNIFICANT ORGANIZATIONAL CHANGES THAT THE LICENSEE PLANS TO IMPLEMENT. WE HAVE ASKED THE LICENSEE TO ALSO BE PREPARED TO PROVIDE DETAILS ON THE OER SINCE IT HAS THE POTENTIAL TO IMPACT AN OSTI THAT WAS BEING PLANNED BY REGION I FOR THE APPROXIMATE SAME TIME PERIOD.

THE ATTACHED PROVIDES THE INFORMATION THAT WE ARE AWARE OF SO FAR. WE WILL KEEP YOU INFORMED.
