Re: Byproduct Material
License 35-12636-05

Dear Mr. Whitten:

This letter is to inform you that the Kerr-McGee Physical Sciences and Measurements Department has been transferred from Kerr-McGee Center, Room T-703, to the Kerr-McGee Technical Center at 3301 N.W. 150 Street, Oklahoma City, Oklahoma.

The license currently permits use of radioactive material at both locations, and two 10 mCi Cesium 137 sources (currently stored in a safe) were also transferred to the Technical Center location in accordance with the requirements of 10 CFR 71.

License Condition 10 should be changed to delete the Kerr-McGee Center Room 703 location for use of licensed material. All other conditions will remain unchanged.

A check in the amount of \$170.00 is enclosed as payment of the required fee.

If you have any questions, please call me at (405) 270-2623.

Sincerely,

Applicant	042614
