

February 10, 1997

Mr. Stephen Dwyer  
 c/o Robert Sanregret, Esq.  
 17621 Irvine Blvd. #100  
 Tustin, CA 92780

Dear Mr. Dwyer:

I am replying to the request made in your E-mail of February 5, 1997. In your E-mail, you requested a copy of the seismic hazard report recently submitted by the San Onofre Nuclear Generating Station (SONGS) licensee to the U.S. Nuclear Regulatory Commission (NRC). I have enclosed a copy of this report, which was forwarded to the NRC by the licensee in a letter dated January 14, 1997. Usually, the staff requests members of the public obtain documents such as this from the local public document room. The reason that I am sending you this copy is that the information in this report is closely related to the subject of your petition, and it was submitted on the docket after your 2.206 petition had been acknowledged by the NRC. It is the staff's policy that all letters and documents generated as a result of a 2.206 petition be provided to the petitioner to the extent possible, unless proprietary information is involved.

Consistent with the policy of providing the petitioner with all information relevant to the petition, the staff, in a letter dated February 3, 1997, requested the SONGS licensee to include you (through your lawyer) on all correspondence to the NRC pertaining to your petition. A copy of the February 3, 1997, letter was forwarded to you, through your lawyer.

Sincerely,

Original Signed By

Mel B. Fields, Project Manager  
 Project Directorate IV-2  
 Division of Reactor Projects III/IV  
 Office of Nuclear Reactor Regulation
