SUBJECT: RENEWAL OF SOURCE MATERIAL LICENSE SUA-1358, ENERGY FUELS
NUCLEAR, INC.'S WHITE MESA URANIUM MILL, BLANDING, UTAH

Dear Ms. Rehmann:

Pursuant to our telephone conversation of February 12, 1997, Source Material License SUA-1358 is currently in timely renewal. The November 7, 1991, U.S. Nuclear Regulatory Commission letter to Umetco Minerals Corporation to this effect inadvertently referred to Source Material License "SUA-1310." The NRC staff regrets any confusion this error may have caused.

The NRC staff is in the process of completing its review of Energy Fuels Nuclear, Inc.'s license renewal application. SUA-1358 will not expire until the NRC has made a final determination relative to this application.

If you have any questions regarding this letter, please contact me at (301) 415-6699.

Sincerely,

/s/
