Gentlemen:

This refers to Materials License 37-09817-02, Amendment No. 06, issued June 17, 1985. The amendment was issued in accordance with your May 8, 1985 letter and May 9, 1985 application.

Through an oversight, the amendment was issued without the required fee being collected. At the time your application was filed, it appeared that your request would be "deemed timely" only and that no licensing action would be taken until the license was terminated. For this reason, a fee was not collected. However, since the license was amended to extend the expiration date, an amendment fee of \$60 is required as specified in fee Category 3P of \$170.31 of the enclosed 10 CFR 170. Payment should be made to the U.S. Nuclear Regulatory Commission and mailed to my attention.

You are requested to remit the \$60 fee within twenty (20) days from the date of this letter. When submitting the fee, please refer to CONTROL NUMBER 103790.

We apologize for the delay in notifying you of the fee due. If you have any questions concerning this matter, please let us know.

Sincerely,

Original Signed By  
Glenda Jackson
