Dear Sirs:

PG&E-1061, "Trojan Nuclear Plant Decommissioning Plan, Revision 1"

The enclosure to this letter provides Revision 1 to Portland General Electric Company's "Trojan Nuclear Plant Decommissioning Plan." The changes to Section 3.2, "Radiation Protection Program," more accurately reflect portable radiation detection instrumentation and facility contamination controls available at the plant. The changes are consistent with descriptions in the Defueled Safety Analysis Report.

If you have any questions concerning this matter, please contact Mr. C. P. Yundt of my staff.

Sincerely,

Stephen M. Quennoz
