Ms. Gloria M. Mitchell, President
Indian Orchard Citizen Council
117 Main Street
Indian Orchard, Massachusetts 01151

Dear Ms. Mitchell

Thank you for providing us the opportunity on July 23, 1992, to present the findings of our July 8 and 9, 1992 inspection of the Interstate Nuclear Services facility to the citizens of Indian Orchard and City of Springfield officials. The efforts by you, Ms. Hammonds and Ms. Ledger to organize and chair the public meeting allowed us to better explain the U.S. Nuclear Regulatory Commission's inspection findings and regulatory responsibilities with respect to the use of licensed radioactive material at Interstate Nuclear Services.

We share your desire to have Interstate Nuclear Services safely operate their facility in compliance with NRC requirements.

If you have any further questions, please contact me at (215) 337-5281 or Duncan White of my staff at (215) 337-5042.

Sincerely,

Richard W. Cooper, Director
Division of Radiation Safety
and Safeguards
