Dear Mel,

Could you send me a copy of the Jan 16th report,  
Seismic Hazards at San Onofre Nuclear Generating Station?

Was this done in response to my petition?

The situation at the UCI library is very bad and it is almost impossible to do research on the old  
hard copy and at the same time work with the new microfisch. I have sent a letter to Teresa  
about reformatting the collection.

In the mean time, this document is the one that needs our most urgent attention and we need  
one good hard copy.

The library also needs a hard copy of this critical report even though it has the microfisch.

Thanks very much

Stephen Dwyer smd@wdc.net
