Subject: Unit 50B Final Radiological Status Report

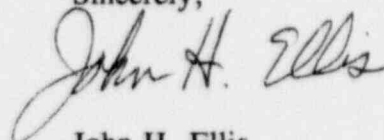

Dear Mr. Hickey:

In a letter from Michael F. Weber (NRC) to Larry A. Tharp (I-40 Industrial Park and Port Trust Board) dated July 25, 1996, a small portion of land on the western edge of the SFIC property east of highway 10 (Unit 50B) was described as impacted. Further, the letter stated that Sequoyah Fuels Corporation (SFC) must perform a survey in accordance with NUREG/CR-5849, provide the survey results to the NRC, and notify the NRC that it intends to release the property. This letter serves as a notification to the NRC that SFC intends to release Unit 50B, and provides the supporting survey results.

SFC has surveyed the property in Unit 50B according to guidance provided in NUREG-5849. The results of the survey indicate that the property may be released. Enclosed is a copy of the survey results for your review. SFC requests that the NRC release the property from further consideration during the decommissioning process.

If you have any questions regarding this matter please feel free to contact myself at (918) 489-3390 or Craig Harlin at 489-3386.

Sincerely,

John H. Ellis
President
