SUBJECT: NRC INSPECTION REPORT NO. 45-10085-03/96-01

Dear Mr. Gring:

On December 19, 1996, the NRC completed an inspection at the Roanoke College campus in Roanoke, Virginia. The enclosed report presents the results of that inspection, which were discussed with Dr. Frank Munley, Radiation Safety Officer on December 19, 1996, following the inspection.

During the inspection, records were reviewed, procedures were discussed with personnel, and direct confirmatory measurements were obtained in and around Rooms 176, 177A, 177B, 178, 179, and 462 in Trexler Hall. Based on those reviews, discussions and measurements, no violations were identified. The inspector determined that based upon the information provided in your August 14, 1996, report and the results of this survey, no additional information, surveys and/or remediation of the facility is required. On the basis of these survey results, we have concluded that the surveyed facilities are suitable for release for unrestricted use.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,
/s/

Thomas R. Decker, Acting Chief
Materials Licensing and Inspection
Branch 1
Division of Nuclear Materials Safety
