Harry E. Traynor, Assistant General Manager

INTRODUCTION OF RADIOACTIVE MATERIAL INTO THE U.S.

Attached herewith are the communications which I received on June 19th from the Acting Commissioner of Customs in my capacity as AEC Representative on the U.S. Intelligence Board. These pertain to the subject which was discussed with you and other members of the AEC on Friday, June 19th.

Subsequent to the meeting in my office, I took up the matter with the Director of Licensing & Regulation, who then contacted you on the telephone.

It is now my understanding that the Division of Inspection, thru the New York Operations Office, and with such contact as is thought to be necessary with the Department of State, will obtain such facts on the introduction of the package in question by Mr. Dornoff for a determination of what action, if any, should be taken by the AEC.

If you have no objection, I would plan to informally advise Mr. Yeagley of the Internal Security Division, Department of Justice, of the action which the AEC is taking, as well as to inform the members of the U.S. Intelligence Board at their weekly meeting on Tuesday, June 23rd, if such information is requested by members of this Board.
