Attached for your information and use is a copy of Revision 65d to the Commonwealth Edison Company (ComEd) Quality Assurance Program Topical Report, CE-1-A, dated February 10, 1997.

Revision 65d expands and updates the organizational description section to reflect recent organizational changes; revises select position descriptions to clarify responsibilities; and editorially revises select verbiage to improve readability.

It is ComEd's position that the changes do not reduce commitment and do not require approval by the NRC prior to implementation. ComEd will implement the changes immediately.

Sincerely,

Lon H. Waldinger
Nuclear Oversight Manager
