

OFFICIAL RECORD COPY

February 11, 1997

Ronan Engineering Company, Kentucky
ATTN: Ms. Erica Starks
Field Services Assistant
8050 Production Drive
Florence, Kentucky 41042

SUBJECT: RECOGNITION OF RECIPROCITY - CALENDAR YEAR 1997

Dear Ms. Starks:

This acknowledges receipt of your Report of Proposed Activities in Non-Agreement States (NRC Form 241) dated January 31, 1997, and receipt of the initial recognition fee as required by 10 CFR 150.20(b) and 10 CFR 170.31 (Category 16 - Reciprocity).

License Number 201-260-95 issued by the Commonwealth of Kentucky is recognized as valid for use in non-Agreement States for up to 180 days in calendar year 1997 only. We will have assign a Location Reference Number (LRN) to each site you have reported. These LRN's will be assigned at the time you send clarification notifications. New activities should be reported on the enclosed NRC Form 241 marked as a revision. Revisions should be faxed to NRC Region II three days in advance of the proposed activity along with the fee for the revision. There is no limit to the number of activities reported at one time, and one fee is charged without regard to the number on the revision page. Clarifications change already-reported information or cancel jobs; they require no fee.

Licensed activities at Exclusive Federal Jurisdiction areas which are within the boundaries of Agreement States (including your state) are under the jurisdiction of the NRC and should be reported to us via the Form 241. We have enclosed a procedure for you to use in seeking determination of the status of federal areas. We have enclosed information on contacting other Agreement States for your convenience.

Some NRC regulations may differ from those of your Agreement State. You are responsible for the content and compliance with NRC regulations while conducting work within NRC jurisdiction. We have enclosed copies of the pertinent regulations for your use. The regulations, your license and procedures are required to be available so that staff who are occupationally exposed to radiation can view them on the way to or from licensed activities. The Commission may, at its option, conduct an inspection of your activities. Enclosed is a copy of NUREG 1600, "General Statement of Policy and Procedures for NRC Enforcement Actions." We shall notify the appropriate NRC offices and Non-Agreement States of your proposed activities.

A current license is required for licensed work in NRC jurisdiction. Please provide us with a renewed license or letter from the licensing agency prior to conducting work in NRC jurisdictional areas after the expiration date listed in your license on file with us.

Our fax numbers are (404) 331-7437/5559. My telephone number is (404) 331-5624. Please call should you have questions.

Sincerely,

/s/

David J. Collins, Health Physicist
