August 28, 1985

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Subject: Dresden Station Units 2 and 3  
Withdrawal of Proposed License  
Amendment to Burn Waste Oil  
NRC Docket Nos. 50-237 and 50-249

Reference: Letter from B. Rybak to H. R. Denton  
dated December 20, 1984.

Dear Mr. Denton:

The referenced letter requested approval of a proposed license amendment allowing disposal of waste oil by burning it in our Dresden Unit 1 auxiliary boilers. As a result of other alternatives we are pursuing for disposal of waste material including waste oil, the proposed amendment is not required at this time. Therefore, Commonwealth Edison is withdrawing the proposed amendment without prejudice.

Please direct any questions you may have concerning this matter to this office.

One signed original and thirty-seven (37) copies of this transmittal are provided for your use.

Very truly yours,

J. R. Wojnarowski  
Nuclear Licensing Administrator
