SUBJECT: INSPECTION NO. 030-19223/97-001

Dear Mr. Richardson:

On January 28 and 29, 1997, Duncan White of this office conducted a safety inspection at the above address and the AT&T Data Center in Fairhaven, Massachusetts of activities authorized by the above listed NRC license. On January 29, 1997, Mr. White was accompanied by Gus Savastano from the Commonwealth of Massachusetts' Department of Public Health. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. In addition, our inspection examined the activities covered in your correspondence dated April 17, 1996. The findings of the inspection were discussed with you at the conclusion of the inspection. This also refers to the telephone conversation on February 7, 1997 between you and Duncan White of this office.

Based on the results of this inspection, it appears that your activities were not conducted in full compliance with NRC requirements. A Notice of Violation is enclosed and categorizes each violation by severity level in accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," (Enforcement Policy), NUREG 1600. You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. After reviewing your response to this Notice, including your proposed corrective actions and the results of future inspections, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.
