BRUNSWICK STEAM ELECTRIC PLANT, UNIT NOS. 1 AND 2
DOCKET NOS. 50-325 & 50-324/LICENSE NOS. DPR-71 & DPR-62
ATWS - GENERIC LETTER 83-28 SUPPLEMENTAL RESPONSE - SECTION 3.2.1

Dear Mr. Vassallo:

On July 8, 1983, Carolina Power & Light Company (CP&L) received Generic Letter 83-28, "Required Actions Based on Generic Implications of Salem ATWS Events." CP&L's response for the Brunswick facility was forwarded to your office on November 7, 1983.

In our response to Item 3.2.1 (Post-Maintenance Testing, Other Safety-Related Equipment), CP&L described its program for performing post-maintenance testing at the Brunswick Steam Electric Plant (BSEP). CP&L also committed to document a review to verify that testing is performed after maintenance activities. CP&L's review has confirmed that the post-maintenance testing program is being implemented.

This correspondence completes the specific follow-up actions committed to in CP&L's Brunswick response to Item 3.2.1.

If you have any questions concerning this submittal, please contact Mr. Steve Chaplin at (919) 836-6623.

Yours very truly,

S. R. Zimmerman
Manager
