Subject: Monthly Operating Status Report for January, 1997

Enclosed for your information and use is the Fermi 2 Monthly Operating Status Report for January, 1997. This report includes the Operating Data Report, Average Daily Unit Power Level, and the Summary of Unit Shutdowns and Power Reductions identified in NRC Regulatory Guide 1.16 and Fermi 2 Technical Specification 6.9.1.6.

In addition, please find enclosed a revised April through December 1996 Operating Data Reports. The monthly Net Electrical Energy Generation was incorrectly reported in the April 1996 report and caused errors in the year-to-date and cumulative values in the subsequent reports. This error was identified during preparation of the 1996 Steam-Electric Plant Operation and Design Report (DOE Form EIA-767).

If you have any questions, please contact Harry Giles, at (313) 586-1522.

Sincerely,

Peter W. Smith
