Washington, DC 20555

Dear Ted:

Please find enclosed two sets of Nuclear Engineering Laboratory drawings and updated copies of page 1-1 of the Definition section of the Technical Specifications for the UTR-10 reactor. The corrections to the text, discussed during our recent telephone conversations, are highlighted in yellow on an extra copy of page 1-1. The first set of drawings contains notes which highlight building modifications while the other set is unmarked or "clean."

Feel free to continue to contact me with any questions you may have on this issue.

Sincerely,

Scott E. Wendt, Reactor Manager  
Mechanical Engineering Department
