Ms. Mary Jo Mattia
US Nuclear Regulatory Commission
Washington, DC 20555

Dear Ms. Mattia:

Find attached an amendment to Cullinet Software, Inc. proposal in response to RFP RS-ORM-85-312. The amendment reflects areas of clarification requested at the May 1, 1985 negotiation session between NRC and Cullinet.

In addition, Cullinet is submitting two different price proposals which are as follows:

Proposal: To be used for cost evaluation purposes

- * Provides the minimum number of products to fully meet the minimum mandatory requirements of the proposal.

Alternate Proposal: Reflect all products originally proposed

Cullinet is also adding to its proposal, procurement options based on the terms and conditions of an executed contract for additional products and/or site licenses. These options are as follows:

Option I:

Option II:

As requested in your letter, May 3, 1985, Cullinet extends this proposal acceptance period to May 31, 1985.

Cullinet is pleased to submit this Last, Best and Final offer to NRC, and has strived to be complete in this submission. Should there be any areas that require clarification, please call at 703-820-2000.

It has been a pleasure working with NRC during this evaluation period, and Cullinet looks forward to a continued involvement with NRC in the future.

Sincerely,
