Date: 11 Nov 1996

Your Internal Audit Requests a Response from me within 45 Days. And Give you an answer in a 4 part response

#1 There was no Violation Because I did not Knowingly Submit inaccurate information, and your Internal Audit that says you think I did is your opinion which is opposite of Mine. Your attempts at officially placing some kind of blame on me is an obvious attempt to subvert the American Justice system. You see, Unlike where you are from, In America we are Innocent until PROVEN Guilty. And that is by a jury of my Peers. Your own Rules can apply to you and those that are maintaining employment under your Guidelines. Neither category of which I currently strive to be a part of.

#2 I had a 10 week suspension without pay prior to my subsequent Termination. Because everything came up to the opinion of the On-Site Managers. Some of whom had a reason to see me removed from my position of authority.

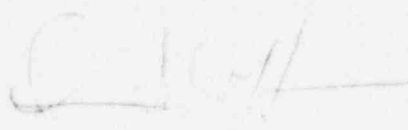

#3 Corrective actions. Due to no Violations none needed. To ensure this doesn't happen again, I will not work at any facilities that belong to Union Electric.

#4 I am currently Terminated, and No longer fall under your Guidelines. So as far as you are concerned, This is full compliance Now.

In Closing, I am upset but not surprised of this turn of events. I submitted my Case thru all the proper Channels all thru the last year of my employment, including bringing my Case to your Region III inspector Gary Pertle during Refuel 1995 in the Spring at Callaway. I am the one that called and requested the Deposition from your Region IV Inspector at my house. (The Deposition that is now obviously completed, so I am requesting a full copy of all information pertaining to my Case.)

I Thank you for your Time and appreciate your assistance in this matter.
