MATERIALS LICENSE

Amendment No. 5

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

Licensee		In accordance with letter dated November 18, 1996	
1. Wittnauer Worldwide, L.P. LWW Division		3. License Number	52-19336-01
2. P.O. Box LW Cayey, Puerto Rico 00737		is amended in its entirety to read as follows:	
		4. Expiration Date	February 28, 2002 (Extended)
		5. Docket or Reference No.	030-17451
6. Byproduct, Source, and/or Special Nuclear Material	7. Chemical and/or Physical Form	8. Maximum Amount that Licensee May Possess at Any One Time Under This License	
A. Hydrogen 3	A. Manufactured watch dials and hands containing luminous paint activated with tritium (Menz and Benteli Trius Nr.1 and/or Radium-Chemie AG Tritium Luminous Paint-Designation PS 362)	A. 5.55 TBq (150 curies)	
9. Authorized Use:			
A. For possession as completed timepieces, for assembly of pre-manufactured hands and dials into finished watches, and packaging of watches for shipment prior to distribution.			

CONDITIONS

10. Licensed material shall be used only at the licensee's facilities located at Rincon Industrial Park, Road 735 Km 2.3, Cayey, Puerto Rico.
11. The Site Radiation Protection Officer for this license is Wanda I. Colon
12. Licensed material shall be used by, or under the supervision of, Wanda I. Colon.
13. This license does not authorize the application or removal of tritium activated paint to/from any watch component.

Amendment No. 5

CONDITIONS

Continued-

14. The licensee shall conduct a physical inventory every 6 months to account for all sources and/or devices received and possessed under the license. Records of inventories shall be maintained for 5 years from the date of each inventory, and shall include the quantities and kinds of byproduct material, manufacturer's name and model numbers, location of the sources and/or devices, and the date of the inventory.
15. The licensee shall maintain records of information important to safe and effective decommissioning at the location specified in Condition 10 pursuant to the provisions of 10 CFR 30.35(g) until this license is terminated by the Commission.
16. The licensee shall maintain a funding plan for decommissioning pursuant to the provisions of 10 CFR 30.35 and this license.
17. This license does not authorize commercial distribution of licensed material to persons generally licensed pursuant to 10 CFR Part 31 or to persons exempt from licensing pursuant to 10 CFR 30.18.
18. Except as specifically provide otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents including any enclosures, listed below. The Nuclear Regulatory Commission's regulations shall govern unless the statements, representations and procedures in the licensee's application and correspondence are more restrictive than the regulations.
 - A. Applications dated:
 - (1) May 12, 1980
 - (2) November 13, 1990
 - (3) July 5, 1993 [Increase possession limit]
 - B. Letters dated:
 - (1) February 21, 1992
 - (2) March 1, 1996 (NRC letter extends expiration in accordance with 10 CFR 30.36)
 - (3) November 18, 1996 (name change)

INFORMATION FOR NRC MATERIAL LICENSEES

Please find enclosed: _____ Your NRC material license
_____ Amendment to your NRC material license
_____ Amendment renewing your NRC material license
_____ Amendment terminating your NRC material license
_____ Notice for Radiographer Quality Assurance Approval Program

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify this office (ATTN: Ms. Diane Heim at (404) 331-4673) so that we can provide appropriate corrections and answers.

Please be advised that your license expires at the end of the day in the month and year stated in the license. Unless your license has been terminated, you must conduct your program involving byproduct materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR 19, "Notice, Instructions and Reports to Worker Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
2. Not possess and use materials authorized in Items 6, 7, and 8, on the license until:
 - a. you have constructed the facilities and obtained the equipment described in the license application and supporting documentation; and
 - b. you have notified the U. S. Nuclear Regulatory Commission, Region II, ATTN: Materials Licensing/Inspection Branch, in writing, that activities authorized by the license will be initiated
 - c. you have submitted & certified implementation of a Quality Management Program (10 CFR 35.32) for radiotherapy, or for administering > 30 uCi of I-125 or I-131.
3. Notify NRC, in writing, within 30 days:
 - a. when an authorized user, Radiation Safety Officer, or Teletherapy Physicist permanently discontinues performance of duties under the license or has a name change; or
 - b. when the licensee's mailing address changes (no fee is required if the location of byproduct material remains the same).
4. In accordance with 10 CFR 30.36(b) and/or license condition, notify NRC, promptly, in writing, and request termination of the license:
 - a. when you decide to terminate all activities involving materials authorized under the license;
 - b. if you decide not to complete the facility, acquire equipment, or possess and use authorized material.

5. Request and obtain a license amendment before you:

- a. receive or use byproduct material for a clinical procedure permitted under Part 35 but not permitted by your license issued pursuant to this part.
- b. permit anyone, not authorized under 10 CFR 35, Subpart J, to work as an authorized user under a license for medical use of byproduct material.
- c. permit anyone, not authorized under 10 CFR 35, Subpart J, to work as a Radiation Safety Officer, Teletherapy Physicist, or Nuclear Pharmacist, under a license for medical use of byproduct material.
- d. order byproduct material in excess of the amount, or a different radionuclide or form, other than authorized on the license;
- e. add or change the areas of use or address (or addresses) of use identified in the license application or on the license; or
- f. change ownership of your organization.

6. Submit a complete renewal application with proper fee or termination request at least 30 days before the expiration date of your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of byproduct material after your license expires is a violation of NRC regulations. Transfer of licensed materials must be consistent with 10 CFR 30.41, 40.51 or 70.42, as applicable. A license will not normally be renewed, except on a case-by-case basis, in instances where licensed material has never been possessed or used.

In addition, please note that NRC Form 313 requires the applicant, by his/her signature, to verify that the applicant understands that all statements contained in the application are true and correct to the best of the applicant's knowledge. The signatory for the application should be the licensee or certifying official rather than a consultant.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a Notice of Violation, or imposition of a Civil Penalty, or an order suspending, modifying or revoking your license as specified in the "General Statement of Policy and Procedures for NRC Enforcement Actions," NUREG-1600, (7/95). Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken against those who do not achieve the necessary attention to detail and standard of compliance expected of licensees.

Thank you for your cooperation.

Enclosures:

Westinghouse de Puerto Rico

11 Stanwix Street
Pittsburgh, PA 15222

November 18, 1996

BY FAX AND OVERNIGHT DELIVERY

U.S. Nuclear Regulatory Commission, Region II
101 Marietta Street, N.W.
Atlanta, GA 30323
Attention: John Potter
Chief of Materials Licensing and Inspection

Subject: Transfer of Material Licenses

Dear Mr. Potter:

Westinghouse de Puerto Rico, Inc. ("WPR") and Composite Holdings, L.L.C. on behalf of Wittnauer Worldwide, L.P. (which will be purchasing certain assets and stock related to Westinghouse's Wittnauer watch business as more fully set forth below) hereby submit this request to amend and transfer the By-Product Material License Number 52-19336-01 and the By-Product Distribution License Number 52-19336-02E issued for operations at the Westinghouse de Puerto Rico LWW Division, Box LW, Cayey, Puerto Rico 00634. We request that each of the foregoing licenses be amended and transferred from WPR to Wittnauer Worldwide, L.P. In connection with our request, we submit the following information provided in response to Nuclear Regulatory Commission "Guidelines for Material Licensing Cases Involving Change of Ownership," items 4(a)-(n).

- 4(a) The name of the new licensee is: Wittnauer Worldwide, L.P.
- 4(b) The licensee contact and RPO will continue to be: Wanda I. Colon, Telephone Number (809) 738-2122.

November 18, 1996

Page 2

- 4(c) Section 4(a), above. Please note that although the name of the new licensee is Wittnauer Worldwide, L.P. No personnel changes with respect to persons having control over licensed activities or persons named in the licenses are expected.
- 4(d) The transferor, WPR, will not remain in any non-licensed business at the licensed facility.
- 4(e) It is currently anticipated that on or shortly after November 22, 1996, Wittnauer Worldwide, L.P., a Delaware limited partnership, will be closing on the purchase of assets and stock from Westinghouse Electric Corporation and/or its subsidiaries as follows:
- (i) Wittnauer Worldwide, L.P. will purchase the assets of the Wittnauer watch business contained within WPR, which is currently a subsidiary of Westinghouse Electric Corporation, and which is the entity that currently operates the NRC licensed facility;
 - (ii) Wittnauer Worldwide, L.P. will purchase the stock of Wittnauer International, Inc., which is currently a subsidiary of Westinghouse Electric Corporation;
 - (iii) Wittnauer Worldwide, L.P. will purchase the assets of the Wittnauer watch business which are presently contained in Westinghouse Canada, Inc., currently a subsidiary of Westinghouse Electric Corporation.
- 4(f) The location, facility, procedures and equipment will remain the same.
- 4(g) The use, possession, storage, and distribution of the licensed material will remain the same.
- 4(h) There are no plans at this time to change to organization, location, facilities, equipment, procedures or personnel that would require a license amendment.
- 4(i) The physical inventories and other surveillance items are conducted at least every six months (the most recent of which was completed on October 3, 1996) and all such records are maintained for at least five years, as required by the licenses.

November 18, 1996

Page 3

- 4(j) The most recent smear surveys, dated July 2, 1996, indicate that there was no presence of radioactive contamination at that time.
- 4(k) There is no presence of radioactive contamination, therefore there is no need for decontamination or the division between WPR and Wittnauer Worldwide, L.P. of responsibility for any cleanup needed at the time of transfer. Financial assurance, as required, will be provided by Wittnauer Worldwide, L.P. under separate cover.
- 4(l) Wittnauer Worldwide, L.P. agrees to abide by all commitments and representations made by WPR to the NRC within the provisions of the current licenses, including but not limited to maintaining the decommissioning records required by 10 C.F.R. § 30.35(g); implementing decontamination activities and decommissioning the site when necessary or appropriate; and completing corrective actions for open inspection items and enforcement actions. Wittnauer Worldwide, L.P. also agrees to accept full liability for the facility and equipment and will provide adequate resources to fund decommissioning of the facility and equipment. Financial assurance, as required, will be provided by Wittnauer Worldwide L.P. under separate cover.
- 4(m) WPR and Wittnauer Worldwide, L.P. agree to the change in ownership and control of the licensed material and activity and the license conditions. Westinghouse has informed Wittnauer Worldwide, L.P. that there are no currently open NRC inspection items and, accordingly, there are no possible enforcement actions which might arise therefrom.
- 4(n) Wittnauer Worldwide, L.P. agrees to abide by all constraints, conditions, requirements, representations and commitments identified in the existing NRC licenses which are hereby being requested to be transferred to Wittnauer Worldwide, L.P.

A check in the amount of \$1,300 is enclosed to cover the fees for transferring both licenses (\$300 fee for license no. 52-19336-01 and \$1,000 for license no. 52-1933-02E) is enclosed.

The licenses referred to in this request are to be transferred to Wittnauer Worldwide, L.P. in connection with the closing of the proposed sale of certain assets of WPR and the stock of Wittnauer International Inc. Because we anticipate a closing of this transaction on or shortly after November 22, 1996, we would appreciate your expedited attention to this matter. Accordingly, please advise us at your earliest convenience as to your consent to the transfer of these two licenses or if you require additional information in connection with your review process. If there are any questions, please contact either James M. Plasynski, Assistant General Counsel, Westinghouse Electric Company (412/642-2591) or Paul A. Supowitz, Klett
