SUBJECT: REMOVAL OF THE RTI, INC., ROCKAWAY, NEW JERSEY, FACILITY FROM THE
NRC SITE DECOMMISSIONING MANAGEMENT PLAN

Dear Mr. Muller:

I am responding to your letter dated June 14, 1996, requesting that the U.S. Nuclear Regulatory Commission release the RTI, Inc., Rockaway, New Jersey, site for unrestricted use and remove the site from the Site Decommissioning Management Plan (SDMP). We have reviewed your reports from the radiological surveys and analysis of soil samples and conducted our own radiological survey. We conclude that all remediated areas at the facility meet the criteria for release for unrestricted use as discussed in the "Action Plan to Ensure Timely Cleanup of Site Decommissioning Management Plan Sites" (the Action Plan) (57 FR 13389-13392) and NRC's current soil contamination criteria.

In accordance with your request, we are removing the RTI, Inc., Rockaway, New Jersey, site from the SDMP list. Further remedial action is not required.

As noted in the Action Plan, this is the Commission's final action on the referenced license. NRC will not require any additional decommissioning in response to future NRC criteria or standards, unless additional contamination, or noncompliance with your Remedial Action Plan submitted to NRC in April 1987, is found, indicating a significant threat to public health and safety.

Thank you for your cooperation in this matter. If you have any questions about our action, please contact Anthony Dimitriadis of my staff at (510) 337-6953 or me at (610) 337-5200. I trust that this reply responds to your request.

Sincerely,

Original Signed By:
Ronald R. Bellamy
