Thank you for your letter of July 10, 1985, in response to our letter and Notice of Violation dated June 10, 1985. We have reviewed your reply and find it responsive to the concerns raised in our Notice of Violation.

We note that your response to the violation involving a contractor failing to follow your procedures for radiation protection does not address your responsibilities for ensuring contractor compliance with radiation protection requirements. This aspect will be included in our review of your corrective actions during a future inspection to determine that full compliance has been achieved and will be maintained.

Sincerely,
