Mr. James M. Taylor  
Executive Director for Operations  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555-0001

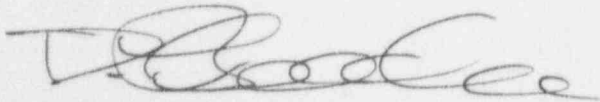

Dear Mr. Taylor:

During our conversation on Thursday, October 24, 1996, regarding my request for a meeting of industry executives and members of your staff, I agreed to provide a list of questions as a basis for a public meeting. I indicated that NEI had a scheduled meeting of industry executives for November 13. A list of specific questions will be provided to you following that meeting.

To be consistent with your scheduling expectations, we would like to hold a meeting in late November to discuss your request of October 9, 1996, for design basis program information.

I look forward to further discussions regarding this matter.

Sincerely,

Ralph E. Beedle
