SUBJECT: NRC INSPECTION

Dear Mr. McArdle:

This refers to the inspection conducted on January 29, 1997 with continued in-office review through February 11, 1997 at your North Canton, Ohio facility. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. At the conclusion of the site inspection, the findings were discussed with Mr. Alan Magno of your staff. This also refers to the telephone conversation Mr. Wayne Slawinski of my staff had with Mr. Magno on February 11, 1997 and you on February 12, 1997, at the conclusion of our in-office review.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel and observation of activities in progress.

In addition to the above areas, the inspector examined actions described in your letter dated December 20, 1995, regarding apparent violations found during our September 29, 1995 inspection. We have no further questions regarding these matters.

No violations of NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practices," a copy of this letter, will be placed in the NRC Public Document Room (PDR).

We will gladly discuss any questions you have concerning this inspection.

Sincerely,
