February 15, 1997

Secretary,  
Nuclear Regulatory Commission,  
Washington, D.C. 20555-0001

Dear Ladies and Gentlemen:

Enclosed are my comments the proposed rulemaking, 10 CFR Part 33 RIN 3150-AF54, Specific Domestic Licenses of Broad Scope for Byproduct Material (Enclosure (1)). My experience and background comes from five years with the U.S. Navy's Master Materials License as an inspector and license/permit reviewer. I also had eleven years with the Navy's Nuclear Propulsion Program. I must state that these opinions are mine alone and do not in way reflect any past or current positions of the U.S. Navy.

Sincerely,

Enclosures: (1)
