A special announced safety inspection was conducted by this office during the period of June 3 - 7, 1985, of activities authorized by NRC Operating License No. NPF-12 for the Summer facility. This inspection included a review of SCE&G's implementation of 10 CFR 50, Appendix R, Sections III.G, III.J, III.L, and III.O requirements at your Summer facility. As a result of the inspection, failures to comply with NRC regulatory requirements were identified.

Accordingly, no Notices of Violation or Deviation are being issued at this time. No response to this letter is required. However, please be advised that the number and characterization of violations described in the enclosed report may change as a result of further NRC review.

Your attention is invited to unresolved items identified in the inspection report. These matters will be pursued during future inspections.
