Dear Mr. Andrews:

By letter dated March 2, 1984, Mr. R. R. Mills of Combustion Engineering, Inc. provided Mr. E. G. Tourigny of this office copies of magnetic tapes for Fort Calhoun Station excore detector monitoring. The tapes were authorized to be released by Mr. T. McIvor of the Omaha Public Power District, and they were to be used in a NRC sponsored study on the feasibility of detecting PWR thermal shield support degradation using excore neutron noise. The study has been completed and a copy is enclosed for your information and use. We thank you for your contribution to the study.

Sincerely,

Edward J. Butcher, Acting Chief  
Operating Reactors Branch #3  
Division of Licensing
