SUBJECT: NRC INSPECTION REPORT 50-313/96-26; 50-368/96-26

Dear Mr. Hutchinson:

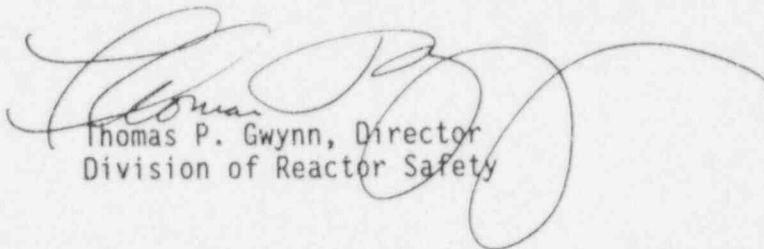

An NRC inspection was conducted October 28 through November 1, 1996, at your Arkansas Nuclear One reactor facility. The enclosed report presents the scope and results of that inspection.

Your land vehicle control program, including the vehicle barrier system, its bomb blast analysis, and procedure controls, was examined during the inspection. We determined that you had implemented an effective land vehicle control program for the protection of malevolent use of vehicles.

The material enclosed, herewith, contains Safeguards Information as defined by 10 CFR Part 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the material will not be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Thomas P. Gwynn, Director
Division of Reactor Safety
